Invitation: On behalf of the NHMRC Chronic Kidney Disease Centre of Research Excellence we would like to invite you to join us for a seminar.

Keynote speaker: Dr Agnes Fogo

Title: ‘Progressive Glomerulosclerosis
- The Vicious Cycle Includes the Tubulointerstitium’

Date: Wednesday, 28th of February, 2018
Time: 12.30 refreshments prior to the seminar from 1pm to 2pm
Venue: RBWH Education Centre, Edwin Tooth Auditorium with Videoconferencing available

All welcome.

Queries: please email Anne on a.salisbury1@uq.edu.au or call (07) 3346 4995

Dr Agnes Fogo did her undergraduate education at the University of Oslo in Norway and the University of Tennessee in Chattanooga, followed by medical school at Vanderbilt University Medical School, where she also did her Pathology residency and fellowship training.

Dr Fogo has served as Pathology Editor for the American Journal of Kidney Disease and Associate Editor for the American Journal of Pathology. She is currently Section Editor for Nephrology Dialysis & Transplantation and Associate Editor for Laboratory Investigation, whilst finishing the term as Associate Editor for The Journal of the American Society of Nephrology, and the incoming Associate Editor for Kidney International. She has also served on numerous grant review committees of the NIH and American Heart Association and participates in numerous renal pathology courses.

Dr Fogo has been a councillor of the International Society of Nephrology (ISN), and was the Chair of the ISN Renal Pathology Committee. She received the 2011 Robert G. Narins award from the ASN for meritorious contributions to teaching. Her research interest focuses on progression and potential regression of chronic kidney disease, and is funded by the NIH. Dr Fogo also has clinical interests in hypertension and the kidney and focal segmental glomerulosclerosis. She has published numerous research articles and reviews, and has authored two textbooks of renal pathology.

Dr Fogo is currently the John L. Shapiro Professor of Pathology, Microbiology and Immunology, and Professor of Medicine and Pediatrics, and Director, Renal Pathology/EM Laboratory at Vanderbilt University Medical Center in Nashville, TN.
